CLARK STEEL SELECTS TRANS INTELLIGENCE FOR ITS BIS SOLUTION

Middletown, OHIO – Clark Steel Framing Systems, one of the oldest continuously operating steel framing manufacturers in the country with 11 branches in the U.S., has chosen Trans-i Technologies' Trans Intelligence product for its BIS solution.

Though Trans-i is a recognized leader in software development for the maritime industry, Clark Steel's Executives were so impressed with the functionality and overall effectiveness of Trans Intelligence; it was selected as Clark's Business Intelligence system. That a company in a completely different vertical market sector chose to implement Trans Intelligence speaks volumes about this product's exceptional capabilities.

Greg Bellows, CEO of Trans-i, had this to say about Trans Intelligence, "In today's global marketplace, the two most important assets are timely accurate information and proactive rapid response to business opportunities. The most successful organizations leverage access to the greatest possible volume of relevant and summarized information to effectively meet the demands of their markets.

Trans Intelligence is an integrated Business Intelligence System providing companies with a highly interactive environment that supports the latest generation of management reporting and analysis. Our mission is to facilitate the task of decision-making and the definition of business strategies at all levels.

Built using powerful state-of-the-art data architecture and 100% web-based, Trans Intelligence integrates information from key sources and summarizes, analyzes and reports it using client-defined best practices. Trans-i's business intelligence solution will significantly improve net yields, ROI and profitability while reducing costs through more responsive and effective management.

About Trans-i

Trans-i Technologies is a recognized leader in providing world-class software solutions for the maritime shipping and transportation industry. With nearly two decades of experience, Trans-i provides powerful, integrated solutions to the marketplace through leadership in advanced technology and applications development. Trans-i also provides consulting services, IT outsourcing solutions, technical services and support. Some of Trans-i's clients include Inchcape Shipping Services, Dole Foods, Totem Ocean Trailer Express, Compania Sud Americana De Vapores (CSAV) and Del Monte Fresh Produce.

Founded in 1996, the company is headquartered in Fort Lauderdale, Florida with Development Offices located in Lima, Peru. For more information – please visit www.trans-i.com
