TOTE SELECTS TRANS-i TO PROVIDE NEW ENTERPRISE-WIDE SOLUTION

Fort Lauderdale, FLORIDA – Trans-i Technologies, Inc. announces that Totem Ocean Trailer Express (TOTE), the exclusive Ro-Ro ocean carrier between the ports of Tacoma, WA and Anchorage, AK, has chosen Trans-i to provide an enterprise-wide back office solution. “TOTE has a very unique operation and, as such, had many unique requirements of their solution provider”, states Greg Bellows – Trans-i’s CEO.

“This project is huge and will have an enormous impact on the company. We reviewed many transportation software providers over an extended amount of time. We chose Trans-i based on it’s proven state of the art technology, superior functionality and their commitment to work with us to achieve TOTE’s goals. We were looking for an integrated system and Trans-i offered the best, most cost-effective suite of products. They were able to work with our existing infrastructure and will customize their products to fit TOTE’s needs. This is the kind of provider I am happy to partner with,” states Bob Rash, TOTE’s IT Manager.

TOTE has selected the following Trans-i products as the core of their new back office system: TranSHIP, Trans Claims, e-Servicenter, Maintenance & Repair and Trans Intelligence.
