**CSAV JOINS TRANS-i TO OPTIMIZE THEIR
EQUIPMENT MANAGEMENT SYSTEM**

Fort Lauderdale, FLORIDA – Today, Trans-i, a global leader of maritime solutions, announced that Chilean-based, Compañía Sudamericana de Vapores (CSAV), one of the oldest shipping companies in the world and currently the largest in Latin America has signed an agreement to develop and integrate their new and innovated Equipment Management System. CSAV is taking this step to improve and optimize their equipment business processes through all their offices and agencies world-wide.

The **QL-EMS** (Quantum Leap – Equipment Management System) is a customized application to manage CSAV's equipment fleet handling activities through a state-of-the-art web based application which was developed in .NET framework. The QL-EMS includes features that will allow to input, modify, and eliminate tracking and equipment activities; production of dynamic reports; as well as to feed information into the system through flat files. This application is scheduled to go live next March, 2007.
