**SOUTH AMERICA'S TOP CARRIER
CHOOSES TRANS-i FOR THEIR e-COMMERCE PORTAL**

Valparaíso, Chile – Compañía Sudamericana de Vapores (CSAV), a Chilean shipping company and presently the largest in Latin America, has selected Trans-i Technologies Inc. as first-choice software developers to implement their customer web interface to operate on a global basis.

The decision to adopt e-Commerce as part of the company's purchasing strategy was made in March of this year. The eCommerce solution is already into production and was developed considering the secure on-line transaction processing for CSAV's clients to control and monitor their daily operations. This portal allows CSAV customer base to obtain live quotes, access to itineraries, bookings, track their shipments, and electronically send the shipping instructions through templates. The system also allows on-line printing of Originals & Non-Negotiable BL's

Trans-i Technologies Inc. has been the main software provider for CSAV for the past 9 years, a business relationship which is being renewed every year by the clear concepts of high quality and flexibility that Trans-i solutions brings to their line of business.

About Trans-i:

Trans-i Technologies is a global leader in providing world-class software solutions for the maritime shipping and transportation industry. With nearly two decades of experience, Trans-i provides powerful, integrated solutions to the marketplace through leadership in advanced technology and applications development. Trans-i also provides consulting services, IT outsourcing solutions, technical services and support. Some of Trans-i's clients include Inchcape Shipping Services, Dole Foods, Totem Ocean Trailer, Compania Sud Americana De Vapores (CSAV) and Del Monte Fresh Produce.

Founded in 1996, the company is headquartered in Fort Lauderdale, Florida with Development Offices located in Lima, Peru. For more information – please visit www.trans-i.com.
